

Lagan Aviation & Infrastructure (part of the Lagan Specialist Contracting Group) is now recruiting for a **Site Engineer** to join our experienced team

**Company:** Lagan Aviation & Infrastructure Ltd  
**Job Type:** Full-time - Permanent  
**Location:** Dublin Airport  
**Reports to:** Operations Manager

### Company Overview

Lagan Aviation & Infrastructure is part of the Lagan Specialist Contracting Group (£200m turnover business) providing specialist contracting services across the globe. From bespoke civil engineering and M&E projects to plant hire and complex airport projects.

Lagan Aviation & Infrastructure help to facilitate the development of airport infrastructure internationally. The team have delivered over 60 projects across the globe utilising our in house plant fleet including mobile concrete and asphalt batching plants.

Lagan Aviation & Infrastructure has recently successfully attained places on 3 major civil engineering frameworks across the UK and Ireland – Dublin Airport Airside and Landside Civil Engineering Framework (€325m framework JV with John Sick & Son), RISE Construction Framework (£5m-£15m in North-West, Yorkshire, Humberside and North Wales) and RAGABO National Framework for Civils & Infrastructure (England and NI). In addition, we have won a place on the MOD Overseas Capital Works Framework for the next 5 years (£400million).

We currently have an annual turnover of £45-50m with plans for consistent growth in this turnover. This will be achieved through maximising framework opportunities and undertaking stand-alone projects with public and private clients.

### Role Overview

An excellent opportunity has arisen for a Site Engineer to join Lagan Aviation & Infrastructure to deliver the Dublin Airport Project.

### What you'll do

The following reflect the main tasks associated with your position and are not intended to be exclusive or exhaustive:

- Compliance with Health & Safety Regulations ensuring that all issues of Health & Safety are monitored regularly and accurate records maintained
- Implement and monitor Health & Safety and ensure compliance by on site team
- Supervise and monitor other Engineers and Setting-Out activity
- Preparation and organisation of programme for work activities
- External contact with sub-contractors and ensure timely payments are made
- Implement and monitor Quality Assurance and ensure compliance by on site team
- Provide efficient reporting on progress to management
- Undertake to handle contractual issues as per conditions of contract
- Attend supervision, training and meetings as required.
- To undertake any other reasonable duties as required

### What you'll bring:

As a Site Engineer your main skills and experience will include:

#### Essential:

- A degree in Construction, Civil Engineering or related subject
- At least 2 years' experience in a Civil Engineering role
- Ability to communicate effectively, both written and verbally
- Ability to successfully implement, maintain and ensure compliance of Health & Safety legislation
- Commercially aware of economies and efficiencies
- Full valid driving licence
- IT literate in all Microsoft Office applications

#### Desirable:

- Working towards professional membership of an appropriate organisation (for example, ICE/CIOB)
- CSR/CSCS Qualification or equivalent
- Experience of using AutoCAD or other equivalent software
- Experience on an Airport Project

### Our values

Our values are important to how we run our business. We have been awarded Gold Investors in People in recognition of our people management practices and investment in learning and development.

We are therefore looking for candidates that can demonstrate behaviours in line with our core values and continue with our culture of putting people first:

- **Trust**
- **Respect**
- **Caring**
- **Fun**
- **Safety**
- **Open & Honest**

**How we'll reward you:**

In return, we'll provide a wide selection of lifestyle offers, development and learning programmes, services and support designed to help you manage and balance your work/life priorities.

Our Core Benefits include:

- Competitive salary negotiable depending on experience
- Employer Pension Contribution
- Membership of relevant Institutions & Professional Bodies
- Life Assurance
- Health Cash Plans
- Cycle to Work Scheme
- Gym Membership
- Car Allowance & fuel card
- Training & Development opportunities
- Mentoring and career pathway
- Generous holiday allowance
- Discretionary bonus scheme
